PEOPLE ALCHEMY

Change behaviour. Get results.

A Modern, Automated Learning Workflow Platform.

People Alchemy encourages real behaviour change through action, activities, and tasks. It's innovative, easy-to-use and jam-packed with features designed to deliver benefits to your people and your business, straight out of the box.

It's your modern solution to driving learning impact.

Ensure learning transfer

Why are we asking our employees to learn? Because we want them to change their behaviour, do their work differently, and ultimately, get greater business results. Consuming content is pointless if they never do anything differently afterwards. So how do we ensure learning transfer?

Change learner behaviour

Help your people apply what they've learned and develop new skills and habits in the process. People Alchemy supports modern workplace learning through workflows and encourages daily application of knowledge for maximum proficiency and performance.

Who it's for?

In-house Learning	The NHS	Training Companies

Environment Agency   BROMFORD GROUP   BENTLEY   ocado   NHS Stockport NHS Foundation Trust

About our Learning Workflow Platform

If you're looking to change your learners' behaviour, our Learning Workflow Platform is the perfect solution. Learning workflows are your opportunity to deliver real impact from your learning through improved performance.

People Alchemy is laser focused on getting you results because it is focused on delivering behaviour change, not just delivering content. Application of learning via tasks, reflection, and activities within a programme of learning helps your learners master new skills, whilst automation, push notifications and off-the-shelf workflows make administering learning a breeze. It's time to embrace the future of learning.

And of course, it includes measurement and assessment of the behavioural outcomes.

Our dynamic Learning Workflow Platform has been designed to be flexible, adaptable, and adjustable. Its applications and permutations are truly limitless.

Learning Transfer and training follow up	Onboarding and Induction	Management and Leadership Development

NHS Care Certificates, Preceptorships, Clinical Competencies and more	Wherever you need to create and assess behaviour change

Case Studies	Explainer Video

And if you think that because you have an LMS or LXP you have what you need – think again. Read **this blog** on how an LWP is different to an LMS.

Your Next Step → Book a Demo

Get in touch and we can show you how you can deliver real change. This is not like other learning platforms. This is different.
